## CIS and CMS:

CIS is a K12 CBSE school with a unique child-centric pedagogy. It was started by Dr. Sunita Gandhi for the education of her children after 26 years abroad and travel to nearly 50 countries.

CMS is a long-standing K12 ICSE/ISC school with a Guinness Record for being the world's largest, and recipient UNESCO Prize for Peace Education.

Dr. Sunita Gandhi is the eldest daughter of the founders of CMS and the Hon. Chief Academic Advisor, CMS.

# a broader and bolder education

CIS education addresses both human and academic development, fuels grit, and ignites aspiration. The school aims to prepare children for life, not just exams. This means learning the 21st Century Skills of communication, collaboration, critical thinking, creativity, character and citizenship.

**Metamorphosis:** Converting the old tunnel of learning into a new process of empowerment

**JOYFUL YEARS**  
Pre-primary Grades

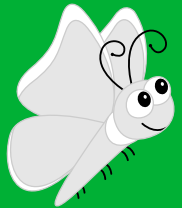

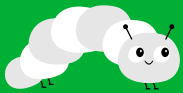

**EMPOWERING YEARS**  
Primary Grades

**INSPIRING YEARS**  
Middle Grades

**VICTORIOUS YEARS**  
Senior Grades

# a happy school

A happy school is a learning school. Worldwide research shows boredom comes from predictable patters of teaching, and has a seriously negative impact on learning. (Hattie)

CIS creates a joyful and varied learning environment by mainstreaming Prior to Teaching Assignment (PTTA) in which children co-create learning with their peers in an interactive setting. Research shows when children teach each other, they learn the most. (The Protégé Effect)

There are a myriad opportunities for growth and to explore children's highest potential.

# accelerating learning for all

CIS has recently adopted the ALfA or Accelerating learning for all pedagogy. It is both a joyful process and a methodology that speeds up learning. The results are extraordinary.

CIS measures success through:

- ★ On-going formative assessments
- ★ TOEFL and Cambridge Examinations in the core subjects as 3rd party evaluation
- ★ Ipsative Assessments and measurement of progress against self, not others
- ★ Competitions at local, national and international levels

VIEW THEM HERE

**ALfA processes are enabling even the KG to Grade 2 tiny tots to read newspapers in both English & Hindi**

## INTERNATIONAL OLYMPIADS

Pratyush Sinha

Aviral Mishra

Shobhita Srivastava

Kavya Gupta

Designing the most implementable solutions in Singapore International Science Challenge 2021

Gold Medal in Thailand International Mathematics Olympiad / Bronze Medal in the Southeast Asian Mathematical Olympiad

## INDIA BOOK OF RECORDS

Daksh Singh

Entry in INDIA BOOK OF RECORDS for recalling ten raised to the power of one to one hundred in one minute while being blindfolded.

# a process-led transformation

At the heart of a school's transformation is the teacher. A teacher's well-being, beliefs, preparation, motivation and engagement are critical.

In February 2022, CIS invited Jon Corippo, a '20 to Watch Educator', USA, to teach us about Edu Protocols. When combined with ALfA and PTTA, these processes greatly boost learning and reduce correction work by the teacher.

## a thoughtful selection of activities

- ★ ThoughtBOX collaborative approaches to learning-for-life address thoughts, emotions, values and capacities while dedicated to climate change and Sustainable Development Goals (SDGs)
- ★ Design and Technology Lab integrates STEM/STEAM Education
- ★ Performing arts, music, and sports and a myriad of opportunities harness the creativity of our children
- ★ Every class is a smart class. Children use innovative Apps on a daily basis

# nurturing leaders of tomorrow

Student volunteers of Grades 4 and up use the Global Dream Disruptive Literacy toolkits to teach the foundational literacy and numeracy (FLN) to adults and children-out-of-school. Global Dream is a people's movement for literacy. Its Toolkits are available in 25 Indian and international languages. They are being used worldwide to make people literate.

## Students As Leaders of Change

Global Dream has been implemented across India by 500,000 students till date

## Literacy & Academic Achievement

- ★ The service-learning group scored higher on all academic measures compared with the no service group.
- ★ Students who participated in Literacy Corps scored higher than their non participating peers on Michigan state assessment.
- ★ Civic engagement activities raised the odds of graduation and improved high school students progress in reading, math, science and history.

**GLOBAL DREAM**  
Disruptive Literacy

# progress against self

From the earliest ages, CIS children learn to compete with self, not others. Combined with the skills to self-evaluate, plan, set goals, prioritize, and study smarter, children develop the aspiration to excel in all domains, and to serve the world at the highest level.

Komal, a student of CIS from Grade 1 onwards, set the record for being “a young woman with exceptional leadership qualities bringing about social change.” She was honored with the title of Top 20 of 2020 by the India Book of Records. Currently, she is pursuing a Masters in Education Policy on a grant from Harvard University, USA. Prior to this, Komal earned 100% scholarship for her B.Sc. from Denver University, USA, and graduated with the highest ‘Cum Laude’ distinction.

## Yes, I Can!

New research-based processes of learning at CIS are ensuring that progress is rapid. When children progress more in less time, it boosts their academic self-concept. A new psychology emerges, **“I CAN!”**

Research by Dr. Sunita Gandhi published in the UK shows that Ipsative: Compared with Self pedagogy improves performance and creates a greater sense of well-being. Such an education leads to:

- Learning with understanding
- Self-reflection and meta-cognition
- Self-efficacy and self-regulation
- Intrinsic motivation resulting in greater effort and self-study

# stress free higher education

- ★ science
- ★ humanities
- ★ commerce

We prepare our students for a number of competitive exams for higher education, and for study abroad

### National

### International

Academic excellence is the most important for later success and the most important responsibility of our school, but there is a lot more.

### The 5 P's of Senior Education are:

- ★ Praiseworthy Character
- ★ Performance in the Boards
- ★ Personality Development
- ★ Proficiency in Spoken English
- ★ Preparation for a life of Service to Humanity

# 2022 learning explosion

When aspiration meets research-based disruptive pedagogy

## Mathematics One Grade Up

## Reading Revolution

## STEM/STEAM

# LEARNING REVOLUTION

**THINK AGAIN  
ABOUT  
EDUCATION**

*Despite school closures due to COVID:*

- ★ All children are doing mathematics one grade up
- ★ Three-year-olds are reading sentences
- ★ Five-year-olds at CIS are reading newspapers in both English and Hindi
- ★ Senior children are getting international placements, scholarships and top ranks in competitions
- ★ CIS students are confident, articulate, informed and caring world citizens

## SEE FOR YOURSELF

*Take an appointment to visit us or attend a forthcoming event at CIS:*

- ★ Ask questions one grade level up from the CIS children of Grades KG through 8. Come prepared with your questions, or bring your children's textbooks.
- ★ Ask the little ones of KG to Grade 2 to read any text from English and Hindi newspapers of the day.
- ★ Ask about our research-based disruptive methods.

BROADER GOALS
